

### Fund Description

The Storm Water Department designs, operates, and maintains the City's storm drain system. The City collects a small fee via the water service billing process to fund a portion of the design, operation, and maintenance of the system. Storm drain funding is also used to help the City remain in compliance with the Municipal Storm Water Permit administered by the Regional Water Quality Control Board and to support activities under the National Pollution and Discharge System (NPDES) Permit. The Fund further provides support for the City's Public Liability Claims Fund. The Water Department is reimbursed by storm drain revenue for costs associated with collection of the storm drain fee.
